

SERVICES

CHEMICAL LOGISTICS

TCF ROSIGNOLI LOGISTICS

RAILWAY HUB

Our terminal, covering an area of 75,000 sqm and served by 5 railway tracks for over 3.5 km, responds to all the needs of conventional and intermodal freight.

Product safety is guaranteed by a double fire control system, waterproof concrete flooring and a system of underground containment tanks to manage any accidental spills of potentially polluting chemical products.

The site is manned 24 hours a day, 365 days a year
