STEEL LOGISTICS

TCF ROSIGNOLI LOGISTICS

HEAVY HAULAGE STEEL TRANSPORT

We are leading providers of logistics solutions for heavy load transport of coils and a wide range of steel products. Our mission is to guarantee efficiency, safety and timeliness, thanks to a state-of-the-art custom-built fleet, a flexible rail terminal and a range of storage and customs warehousing services.

We create customized projects that optimize times and costs, while maintaining a strong commitment towards sustainability and innovation.

COMBINED LOGISTICS SOLUTIONS

75,000 sqm railway terminal with 5 ground-level tracks for over 3.5 km

11,000 sqm warehouse with one 250m indoor track

Two indoor 50 tonne bridge cranes and a fleet of custom forklifts for coils

In-house mechanical workshop

Fleet of over 60 custom-built heavy haulage vehicles

Ecodrive training classes

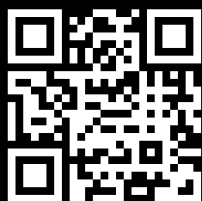

Electric shunter for internal rail maneuvers

Item labeling and customer web portal for easy picking
